

Sprint 1 Report - CMPS 115 – Software Methodology

Product Name: Toss Time

Team Name: Sinked Inc.

Date: October 19, 2021

- **Actions to stop doing:**

1. Stop prolonging standups.
2. Stop letting work pile up over time - work more consistently

- **Actions to start doing:**

1. Start being more focused during sprint meetings - less idle activity / chatter
2. Start being more realistic with work estimates
3. Meet in person more often

- **Actions to keep doing:**

1. Keep being flexible for meeting times
2. Keep being interested in potential technologies we can use
3. Adapt better / faster to changing technological environment

- **Work completed/not completed:**

For user story:

“As a dye player, I want an app that shows nearby dye games on a map, so I can play more.”

Tasks completed:

- | | | |
|---------|--|--------------|
| Task 1: | Set up XCode for all team members | (2 points) |
| Task 2: | Do plenty of research into Google API & Databases | (4 points) |
| Task 3: | Implement a map that can be viewed on a mobile device (iOS). | (6 points) |
| Task 4: | App can center around some location / marker on the map. | (2 points) |

Tasks not completed:

- | | | |
|---------|---|--------------|
| Task 5: | Be able to post a marker on the map. | (4 points) |
| | > Involves databases - could carry over into Sprint 2 | |

• **Work completion rate:**

Total number of estimated ideal work hours completed: 14 hours

Total number of days spent during the prior sprint: 5 days

Final Burnup Chart
