Sprint 1 Plan

Product Name: Toss Time

Team Name: Sinked Inc.

Completion Date: Oct. 19th, 2021

Goal:

For this sprint, we aim to establish the basis for our project by investigating the many technologies available to aid us. We'll begin by implementing a map using Google API, and if time permits, we may be able to place markers at locations on the map.

Task Listing

"As a dye player, I want an app that shows nearby dye games on a map, so I can play more."

Task 1:   Set up XCode for all team members   (2 points)

Task 2:   Do plenty of research into Google API & Databases   (4 points)

Task 3:   Implement a map that can be viewed on a mobile device (iOS).   (6 points)

Task 4:   App can center around some location / marker on the map.   (2 points)

Task 5:   Be able to post a marker on the map.   (4 points)
                > Involves databases - could carry over into Sprint 2

Total time for user story: (18 points)
